Empowering the Next Generation: The Principal's Perspective

In the pursuit of raising a platform for young generation and finding the process of preparing students to succeed in the future, which is unpredictable and constantly changing, our daunting journey of research, unlearning and introspection began. And we emerged with an education model to which we gave the name 'The Modern School'. Why 'The Modern'? Today the term 'modernization' is the most misunderstood one. 'MODERNization' don't mean 'Westernization'. Our belief about modernization is providing international exposure and opportunities, to study the cultures, events and practices of various societies; to pick up good aspects and imbibe them in ours. Having a community of teachers and students from diverse

nations and cultures compliments this very approach. The other aspects that we lay a strong emphasis upon are strong Human and Social Values and receptivity and respect for different opinions. The educators at The Modern are specialists who ingrain in our students the finer nuances of life and pave every single step of their ascent to a socially, morally, emotionally, spiritually and intellectually responsible citizens. To transform them into 'Citizens Of The World'. The world has changed phenomenally since we started our journey. Today will live in the times of 'Artificial Intelligence', 'Augmented Reality' and 'Internet Of Things'. Lifestyles are changing. Several traditional jobs and careers are fast becoming obsolete. At The Modern we remain committed to keep reinventing our curriculum, pedagogy, systems and practices to well prepare our students to adapt to this new world order. While doing so, we never lose focus from our endeavour of creating happy and joyful communities. We always believe in standing by our beliefs and never resting on our laurels. Because we seek to enhance upon what we have already achieved. We are proud of the heights we have achieved. But there are loftier peaks to scale. Day after day. Year after year.

PARENTING IS NOT EASY...

A story inspired by Gijubhai Badheka

Shantiben was at her wit's end. "What do I do with this girl", she whined, "Whenever she sets the table, she bangs down the plate and katoris. Nine times out of ten, she does this".

"Have you even told her to set the dishes gently?" I enquired.

"Ever?", she snapped, "Always. Every time she does this I have to tell her".

"But the one time out of ten when she does work quietly, do you tell her that that is the correct way of doing things?"

I asked. "No", replied Shantiben. "What is there to tell. It's no big accomplishment if it does happen once in a while" On the contrary" I said, "that's where we make a mistake. We are quick to point out a child's mistake. And we keep doing so, again and again, until the child almost forgets that there is another way. It even forgets that the mistake is

a mistake. And the vicious cycle continues. It makes more mistakes, gets scolded more often, and then makes more mistakes."

But a child isn't always doing things wrong. It is equally doing much that is correct and good. But this, we ignore or overlook, often do not even notice. We are always on the alert to catch and point out the mistakes, but not to point out and commend a good deed. What if we told the child that one time, "That is a neat table you have laid today. Would it not be nice to have it like this everyday?"

It could work wonders. The child is suddenly made conscious of something good that it has done. It will try to continue to do the same. It will even try to develop the skills to do even better.

A little encouragement- even acknowledgement- of the child's strengths can work as a great incentive for self improvement.

To reinforce only the weaknesses, to point out only the faults, is to kill all positive incentives for the child.

A few words of encouragement or praise can pierce the dark recesses and brighten every act.

बाड़मेर आया तो सबसे बड़ी चिन्ता यही थी कि यहां अच्छी एज्युकेशन कैसे मिलेगी। द मॉडर्न स्कूल ने मेरे सारे संदेह भर दूर किये बल्कि चौका दिया, कि कितना कुछ किया जा सकता है बच्चों को लेकर। मेरा तो ट्रांसफर हो गया मगर अब चिन्ता यही है कि जहां भी जाऊं मेरे बच्चों को ऐसा ही स्कूल मिले। - यतीन्द्रसिंह (असिस्टेंट कमांडेंट BSF)

मेरी बेटी ने यहां आकर मैं से "हम" का सफर तय किया है। अफसोस यही होता है कि यहां आने में मैंने देर क्यों की। मैं मेरा पूरा परिवार बहुत खुश है कि हम इस मॉडर्न परिवार का हिस्सा हैं। यहां संस्कारों पर जोर भी है बच्चों के बहुमुखी विकास की पूरी फिज़र भी। - एडवोकेट मनोष दवे (अभिभावक)

The Modern School came to my notice for the first time when a group of teachers and students came to meet me in my school. They presented me with a card which harnessed seeds. Their approach towards nature enticed me to think differently. Again, their idea of 'Mothers Recipe Day' wherein volunteer mothers serve food to all the children in the school is actually one of the best example of inculcating the habit of 'sharing is caring'. As a principal of a Kinder Garten school, I learnt a lot from your school and implemented many ideas in my school as well. -Mrs. Anju Chaturvedi

The Modern School is synonymous to the innovative, holistic and stress free education in Barmer. It's the premier school providing exposure to children in co-curricular and extra curricular activities in addition to studies. I am happy to avail the educational approach and environment of The Modern School for my kids and wish the school all the best for all its endeavours in future. Proud to be a Modernite. -Advocate Indu Tomar Counsellor and Life Coach.

द मॉडर्न स्कूल बाड़मेर से मैं पिछले 7-8 साल से प्रेंट्रस के तौर पर जुड़ा हुआ हूं। इस स्कूल की वो एक खास वजह जो इसको दूसरी स्कूलों से अलग बनाती है। वो ये है की यहां एक बच्चे का सर्वांगीण विकास होता है ये संस्था बच्चे के जीवन से जुड़े हर एक पहलू को एक मूर्तिकार की तरह तराशती है। चाहे वो सांस्कृतिक, हो सामाजिक हो खेलकूद हो,

योग हो संगीत हो या कोई अन्य कोई कला हो। और वो पारंगतता कुछ ही समय में आपको अपने बच्चे में दिखने लग जायेगी। इसके अतिरिक्त भी आने वाले समय में ये लोग कई नवाचार करने जा रहे है। इसके साथ साथ समस्त स्कूल प्रशासन कॉर्पोरेटिव है। - महिपाल सिंह कुंडा (युवा उद्यमी)

Choosing a good school for your child is a challenging part of life. The Modern School is one of the best CBSE affiliated school in Barmer district which can be selected by the parents for their child's career, bright future and all over development. The Modern School not only provides quality education but always strives for the personality development of the students through co-curricular activities.

TMS is equipped with the best team of highly skilled educationists with

efficient management staff strives for the best academic results of the students. A grand school building equipped with all facilities, sports ground, garden, library, laboratory, workshops and educational programs conducted from time to time give it a different identity from other schools. I am glad that as a parent I have chosen The Modern School for both my children and guide my friends for the bright future of their children. -Dilip Rathi (JAPCOM SKILL ACADEMY)

I am impressed with the curriculum and teaching methods which is different from other schools. We are very satisfied, our child always gets ample opportunities to explore and progress in all aspects with

your guidance, our daughter has developed into a confidence and capable to do anything.

At last the school is very good. I recommend the school to other parents.
